Celebrating Learning

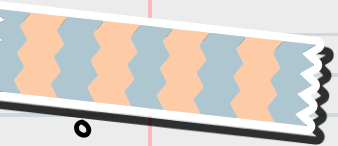

Let's Celebrate!

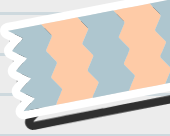

Celebrating learning in PJS was more evident this month (*October*) through in-class activities and differentiated instructions. Teachers created an engaging and inclusive educational environment for all our students. By providing opportunities to showcase their knowledge and skills, tailoring instruction to meet individual needs, and recognizing their achievements, teachers were determined on nurturing a positive learning experience that motivates our students and promotes their overall growth and development.

Around school and in-class activities included various forms, such as presentations, group discussions, and hands-on experiments. These activities allowed students to apply what they have learned in a practical and meaningful way, where they also served as a form of assessment. By giving students the chance to demonstrate their understanding of the material, teachers celebrated students' achievements while also identifying areas that need further development.

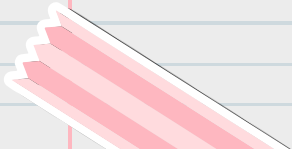

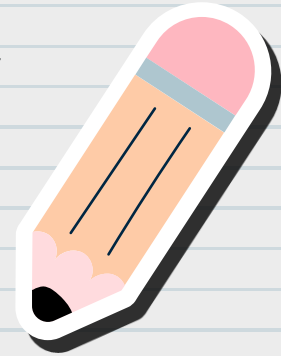

01

Enrichment Sessions

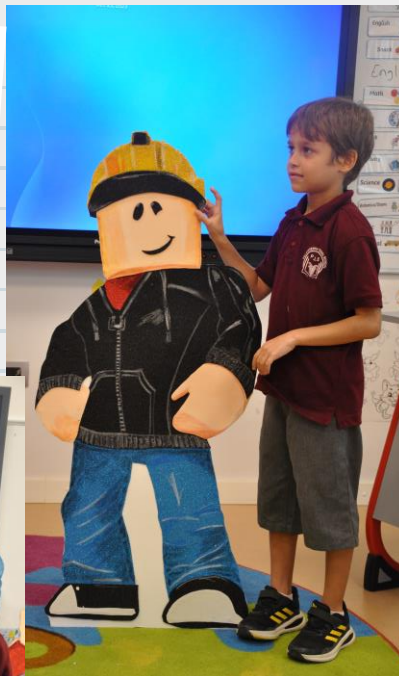

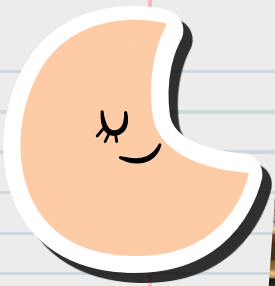

Roblox were in the house!

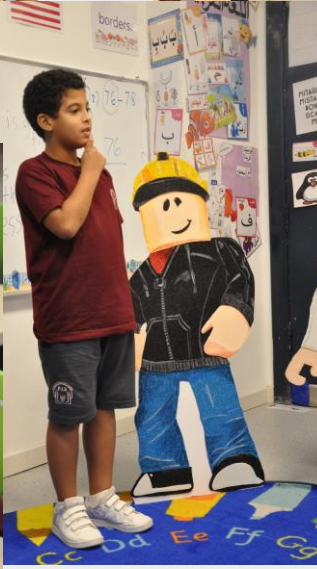

→ Descriptive Presentations ☆

Students reflected on the lesson by engaging in describing setting and characters of Roblox through class presentations

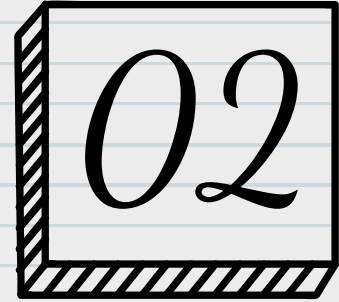

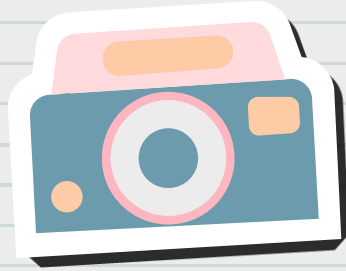

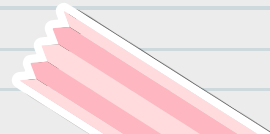

Descriptive Presentations and Descriptive Writing

Core Subjects

You can do it!

Making changes that can't be *Undo*!

Creating different arrays with blocks!

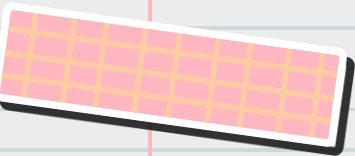

It is My Birthday!

Paper Spiders

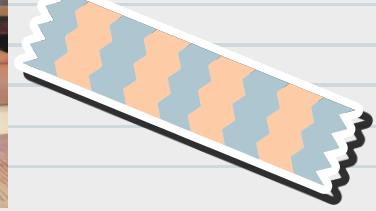

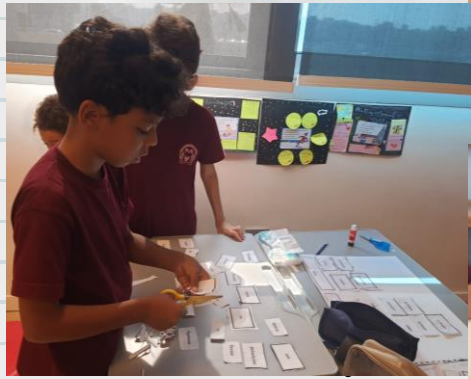

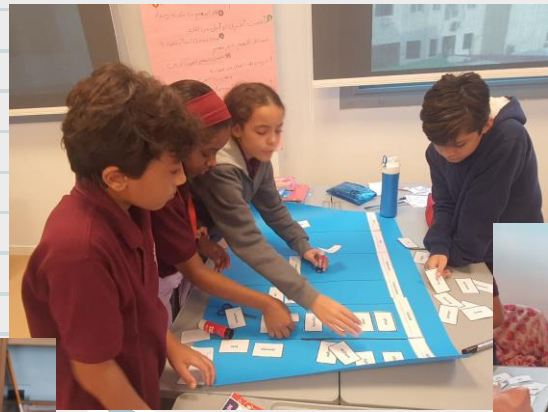

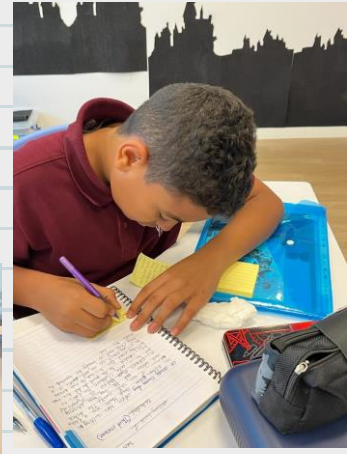

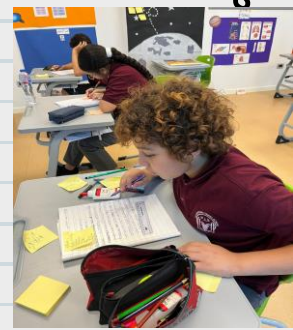

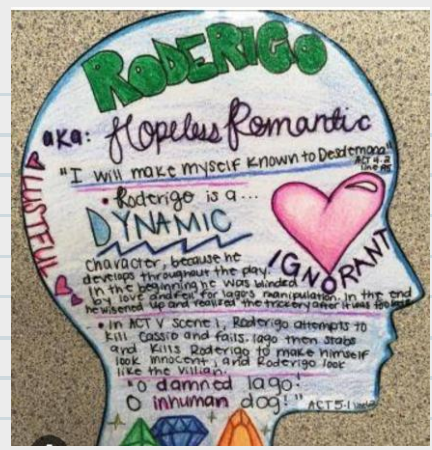

Describing pictures using different *adjectives*

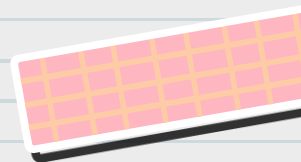

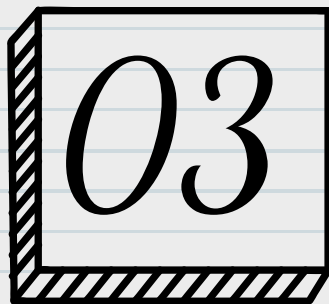

*It is My
Birthday!*

Characterization, Reflection and Note-taking

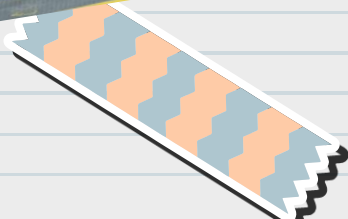

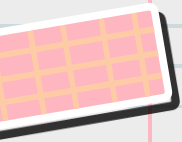

Traffic Town

Want to Drive?

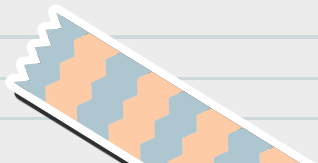

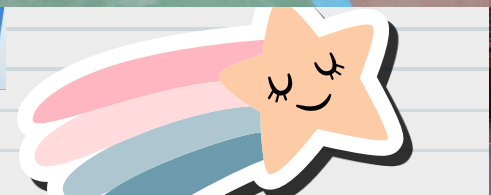

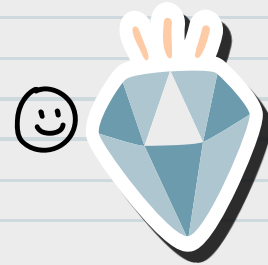

04

Character Day

What if books' characters came to life?
