

# BI-Weekly Newsletter- I

## First Day of School

On the first day of school, our young adventurers embarked on a joyful and exhilarating journey towards knowledge, marking the beginning of their educational odyssey.

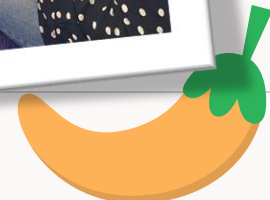

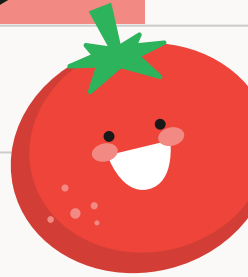

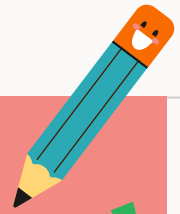

# Learning Circles

The transformative power of Learning Circles in Kindergarten, seamlessly integrating the renowned Montessori approach.

By combining the principles of self-directed learning and collaborative exploration, Learning Circles creates an engaging and enriching environment for young learners.

Through carefully designed activities and materials, children are empowered to follow their natural curiosity, develop critical thinking skills, and cultivate a love for learning.

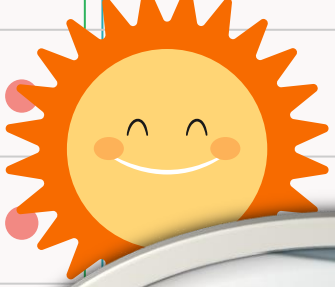

These circles, guided by skilled educators, foster a sense of community, encouraging peer interaction and cooperation, self-directed learning, and collaborative exploration principles.

# Mawled El Nabawi

At Palm International School, we value and honor cultural diversity, including the celebration of the Prophet Muhammad (peace be upon him). Recognizing the importance of teaching our students about their heritage, we strive to foster a deep understanding and appreciation of their cultural traditions. By embracing these celebrations, we provide a solid foundation for our students to build upon, empowering them to become global citizens who can contribute positively to the world. Through our inclusive approach, we ensure that our pupils develop a strong sense of identity while promoting intercultural understanding and respect. Together, we create an enriching environment that nurtures the growth of well-rounded individuals who embody the principles of compassion, tolerance, and unity.

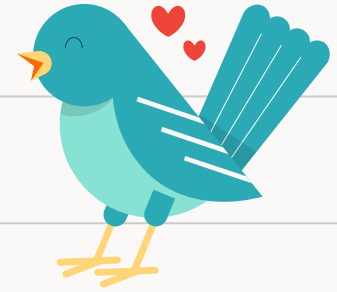

# Arabic

At PIS, we prioritize the development of high proficiency in Arabic, recognizing it as the mother tongue of our young learners. We firmly believe that a strong foundation in one's native language is essential for successful language acquisition in general.

To ensure this, we have entrusted Ms. Souad, a highly experienced and knowledgeable Arabic language educator, with the responsibility of imparting comprehensive Arabic language skills to our students. With her expertise and dedication, Ms. Souad strives to create an engaging and effective learning environment, enabling our students to master Arabic language proficiency. By equipping our students with a strong command of their language, we empower them to excel in their language studies and become effective communicators in a multilingual world.

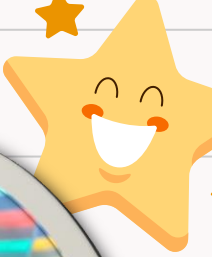

# Reading!

At PIS, we recognize the paramount importance of reading as a fundamental aspect of learning. With this in mind, we place a strong emphasis on cultivating a love for reading among our students. In addition to dedicated reading sessions, our class teachers actively encourage our young learners to engage in storytelling and foster a genuine appreciation for books. By instilling a passion for reading, we aim to empower our students with the invaluable ability to explore new worlds, expand their knowledge, and develop critical thinking skills. Through our holistic approach, we inspire a lifelong love affair with literature, nurturing well-rounded individuals who embrace the enriching power of the written word.

# Star of the Week

At Palm International School, we deeply comprehend the profound impact that recognition has on the human brain, fueling motivation and inspiring continued growth. As a testament to our commitment to fostering excellence, we proudly conclude each week by selecting an exceptional student from every class who has demonstrated outstanding academic and behavioral achievement. This cherished tradition serves as a powerful incentive for our young learners to continually strive for greatness, igniting their passion for personal development and encouraging them to surpass their expectations. By celebrating these remarkable individuals, we not only nurture a culture of achievement but also instill a sense of pride and accomplishment that resonates throughout our vibrant learning community.

# 6<sup>th</sup> of October Celebration

At PIS, we wholeheartedly believe in nurturing a profound love and appreciation for one's country, as it serves as the bedrock for cultivating citizens of integrity, strong principles, and moral values.
